

ATH MMH450 Mini-Motorradheber

Product Images

Description

- Stable, technically mature motorcycle lifter in flat design for professional garages
- Lifting and Lowering through spindle drive and delivered key
- Lowering into safety notches: The lifter has a mechanical notch for lowering the load without pressure
- By movable pistons the device can be adjusted almost universally on the motorcycle
- The low weight also allows a mobile use
- Rubber pads protect the motorcycle of damages on the frame and provide more traction
- Scissors adjustable: 100 - 340 mm; V-adaptors adjustable: 70 - 110 mm
